Short *i* Nonsense Word Story

The **ix** was **bim** and **hin**. We all did **dib** in the **nin** and then got **vit** the **yin**. **Zib**, the **tix**, went to get the **jim** of **bip**. We all wanted to go, but the **dif** of the **min nim** was not **lig** about that.

Then the **mip** of **tib** got a big **wid** of **hib**, a real big **wid** of **hib**. It was so big that **nix** and **hig** could not **bis** the **wid** of **hib** with each **rin**.

Then we went and got the **viv** to the **hig**. The **hig** was all the way in the **zid**. And the **zid** was all the way in the back of the **zick**, the very back of the **zick**.

Off we went. I got a **lim** and put it in the **nin**. What will we do? We had one **wib** of **hib** now stuck in the **biv** of the **wix**. And I did not know how to get the **wid** of **hib** out of the **biv** of the **wix**. I took a **siz** and **wid** it right in the **dit**, right **nin** in the **dit**. We got not one **tig**, even one **tig**, not even a **vix tig**.

I knew I had a **quin**. But then I got a **tiz** for the **wid** of **hib**, and at last it came out of the **biv** of the **wix**. Next time I will **lim** for the **ix** before I ever **sig** the **dif** of the **wid** of **hib**, and you can **yib** the **rix** on that **vit**.
