Nonsense Word Story

Tanth the **swutch** had a **clesh** of **cluck** to **slong**. And I **splesh** that about her. I mean she is **chunts** and **sheft**, and I **crish** with her all of the time. But - and there is a big *but* - **Tanth** can be **whump** at times and even a little **streng**. I don't want to be **thoft**, but I think that the **greph** gets a bit much, if you know what I mean.

So **Tanth** and I went to the **clunch** over by the **snock**. And did we have fun. We did the **sleck** and took a ride on the **whint**. I got **gilch**. Then we went and got some **slesh** to eat. I hate **slesh,** but **Tanth** said it was her **skitch**. So I went along. But I still hate **slesh**. Then we had a **floth** of **tweng**. It was **stanch**.

After all of the fun we went to the **squill** to see the **mish**. We saw the **shrumps** and the **brish** of the **creng**. And we **spreng** the **tranch** of the **shrad,** too.

It was a good **plish**, and we **swush** all the way back. Next time I want to **drock** and **slish** on the **brench spack**. But even then I also want to **quist** the **plack** of the **stresh** if I can **shuft**.
